ELECTRICAL SERVICES	
Voltage	230 V
Current	13 Amp fused
Frequency	50 Hz
Maximum Consumption	1.3 kW

Even the smallest office locations can enjoy quality hot drinks. With a choice of either instant or espresso (bean-to-cup) models, the Colibri offers a wide range of drinks to suit all tastes, including creamy chocolate, frothy cappuccino and freshly ground coffee. With a capacity of 150 cups, the fully automatic drink service couldn't be simpler, with a direct selection push button system designed for ease of use and speed of service.

### ESPRESSO SERVICE

The Colibri Espresso is fitted with the patented Necta Z 3000 brewer, which ensures optimum extraction from the coffee beans. This means that you can enjoy a truly aromatic full-bodied espresso, with a long lasting foamy cr me, as well as a range of continental drinks.

The second coffee canister doubles the number of drink selections. Due to the coffee pre-selection, all coffee based drinks can be chosen from beans or instant coffee, for example decaffeinated coffee.

### features:

Fully automatic hot drink service.

Compact retro styling.

Simple to clean and fill.

Available in a choice of instant and espresso (bean to cup) models.

Visible coffee beans.

Pre-selection button for sugar.

Coffee pre-selection on all models for doubling the drink selections.

Choice of menus available for each model.

Optional base cabinet.

Water tank and pump kit available for unplumbed sites.

Semi automatic mode as option.

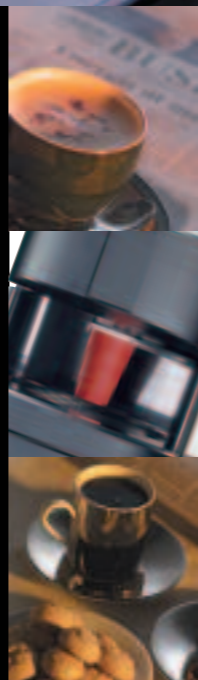

Either paper or plastic cups can be vended.

Easy selection of required machine layout.

### INSTANT SATISFACTION

The instant model offers up to two instant coffees, allowing a choice of either decaffeinated or perhaps a premium coffee, as well as a range of continental drinks. With its impressive five canister capacity, the Colibri Instant offers a drinks menu normally expected from a larger machine.

Instant - 1	Instant - 2	Instant - 3	Instant - 4

- 2nd coffee pre-selection button on all models (except Instant - 4).
- Sugar dosing pre-selection button on all models.

- Sugar and 2nd coffee pre-selection on all models.
- Cappuccino without chocolate.

In order to produce the highest quality drinks, N&W recommend the installation of a resin based water filter to drinks machines fitted with espresso (coffee bean) brewers.
