

FM 7000

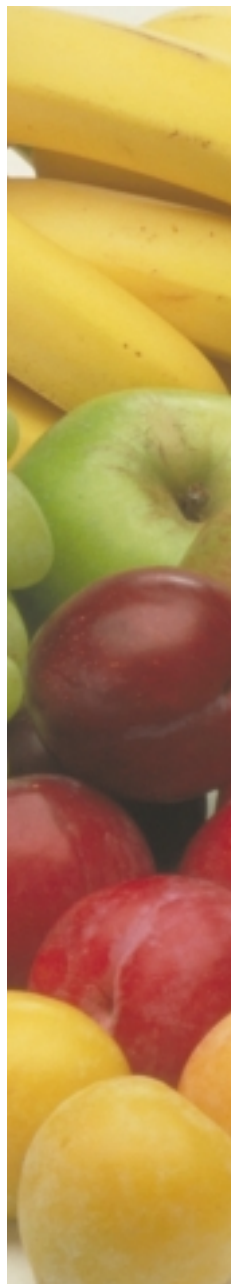

WITTENBORG

The FM 7000 offers the ideal solution to vending fresh food and snacks with simple loading, easy programming and flexibility. Appetising food is correctly preserved then dispensed hygienically. Should the set temperature deviate, the machine will not vend any products due to the safety cut out facility.

With a choice of either 8 or 10 drums, the FM 7000 can display a wide range of products from pre-packed sandwiches, fruit, yogurt and pastries to plated meals (9 inch diameter).

The increased drum height of the 8 drum model is suited to the popular oversized triangular sandwich packs, which can be displayed correctly due to the higher than standard 130mm height.

An innovative air flow system allows an even distribution of temperature or can be adjusted for each drum, to suit the products displayed - no more soggy pastries!

Prices are simple to set for each drum and are displayed electronically, which enhances the look of the machine as well as saving operator time.

features:

The FM 7000 can be programmed to vend food using either the shopper mode or FIFO (first in first out) depending on the clients' requirements and is easy to use. Simply press the large vend button until the product you require is positioned in the slider zone, then press the selection button next to the slider zone and the slider will open automatically, allowing the product to be removed, then will close - couldn't be easier!

Modern and elegant design to suit the most design conscious clients.

Contemporary looks enhanced by a back-lit photographic panel.

Two models available offering either 8 or 10 drums.

Up to 150 selections can be displayed at any time.

Either FIFO or Shopper mode available.

Simple direct selection push-button service with automatic sliders.

Electronic price display.

Compact, yet the 700mm drum diameter allows a 9 inch plate to be vended.

Ideal for vending long baguettes up to 270mm using minimum space.

Programmable temperature with safety cut out facility.

Complementary range of drink, snack and can vendors available.

- User friendly design.
- Programmable price per drum.
- Choice of photographic panel.
- Slide out refrigeration unit.
- Standard settings can be easily changed.
- Adjustable temperature airflow.
